Distributor of:

- Nonwoven Geotextiles:** High UV Rated Permanent soil separation and drainage fabric.
- Woven Geotextiles:** Permanent and Biodegradable reinforcement, soil separation, and drainage fabric.
- High Strength Wovens:** High Performance products provide superior strength and water transmission.
- Fiberglass Geogrid:** Soil Reinforcement for Long-Term Design Strength Applications.
- Biaxial Geogrid:** High Strength HDPE Geogrid for soft soil reinforcement in road construction.
- Geocomposites:** Bi -Planar, Tri-Planar and Tri-Axial for sub-surface drainage.
- Akwadrain Flat Drain:** A perforated, high flow capacity polystyrene core wrapped with a filter fabric.
- Vertical Wick Drain:** A two-part prefabricated soil drain, filter fabric covering a polypropylene core.
- Weeping Tile & Culvert:** HDPE Single/Dual Wall Culvert Pipe, Solid & Perforated Drainage Pipe and fittings.
- Gabions:** Modular Welded wire Gabions and Mattresses.
- Earth Anchors:** Duckbill, Manta-Ray, Penetrator Anchors, Staples, Pins & Wood Stakes.
- Erosion Control Matting:** Straw, Straw/Coconut, Coconut, Polypropylene, GeoJute & Coir.
- EnviroRidge:** Semi-Permeable Ditch Check System: replaces straw bales and rock check dams.
- Straw Wattles:** An alternative to silt fence or straw bales for sediment control / storm water runoff.
- Grassy Pavers & Geocells:** A honeycomb structured cellular confinement system for lane reinforcement.
- Transition Mat:** Scourshield and ScourStop as a Riprap alternative.
- EPDM Geomembrane:** Rubber liner with excellent resistance to UV, temperature fluctuations & oxidation.
- Plastic Fencing:** Safety and Snow Fencing, Game Fencing, Privacy & Wind Fencing.
- T-Posts:** Various sizes and weights, Post pounders, Post pullers, T-Post Caps & Ties.
- Landscape Supplies:** Contractor Grade - Landscape Fabrics, Plastic & Aluminum Edging.

Manufacturer of:

- Silt Fence:** High flow silt fence, Black or Orange, Contractor grade or Alberta Trans. spec.
- Bio-Degradable Silt Fence:** 100% Bio-Degradable high flow silt fence.
- Dewatering Silt Bags:** Various sizes of 6oz nonwoven filter bags.
- Filter Socks:** Various sizes to accommodate up to 24" in various filter cloth material.
- TrackWrap:** Designed to contain debris left on backhoe tracks during transport.
- WindowWraps:** Designed to protect windows on industrial equipment during transport.
- CasWalk:** Designed as a light, portable and safe walking/working surface on jobsites.
