

AQUATECH CANADIAN WATER SERVICES WATER AND WASTEWATER OPERATORS

Aquatech Canadian Water Services is a privately held Canadian corporation established in 2004, specializing in management, operations, and maintenance services for both Water and Wastewater facilities. Aquatech Canadian Water Services is one of the largest private Canadian operations teams of Water and Wastewater treatment plants.

We presently are hiring a Certified Level II WT Operator for a full-time position. Candidates must possess valid Level III Certification for Water treatment. This position is for our Balzac area operations near Calgary.

This specific position is to join a strong existing team of staff members, that will operate, repair and execute the daily maintenance on the Water Treatment systems.

Duties, responsibilities and personal qualities required, but are not limited to:

- ❖ Operate and maintain a level 2 DAF Water Treatment system;
- ❖ Proficient in Microsoft office;
- ❖ Collecting and analysis of samples;
- ❖ Process Interpretation and adjustment of process, according to the lab results;
- ❖ The ability to do minor maintenance on Chemical injection systems;
- ❖ Calibrate lab equipment and on-line instrumentation;
- ❖ The ability to trouble shoot process alarms and respond;
- ❖ Compile and complete the required reports and documents;
- ❖ Be motivated, flexible and a team player;
- ❖ Respond and communicate efficiently to client inquiries and maintain good relations with public, office staff, co-workers, and contractors.
- ❖ Have effective organizational skills;
- ❖ Promote a positive image of Aquatech Canadian Water Services.
- ❖ Be willing & competent to complete a regular, on-call rotation.

The successful candidate will enjoy a competitive salary and benefit package, plus many other incentives from a company who regards "Our employees as our most important resource". Please submit your resume to:
