

**EQUIPMENT OPERATOR
COMBINATION FLUSHER/VAC & STRAIGHT FLUSHER TRUCK**

Do you want to join our highly skilled team that has been pioneering underground pipe infrastructure maintenance and assessments for over 30 years?

Established in 1988, Cam-Trac Inspection Services Ltd. has been providing hydro-excavation, pipeline flushing, cleaning, CCTV inspections, data collection, and mapping services for Municipalities, Contractors, and Engineering Firms throughout Western Canada and the Northwest Territories.

Cam-Trac currently has an opening for a permanent, full time Equipment Operator who is talented in operating equipment for hydro-excavation, flushing and cleaning of underground pipeline infrastructure assets.

Your duties include but are not limited to:

- Operate the following equipment: combination flusher/vac, straight flusher, steamer unit, GPS data collector, and hydro-excavation unit
- Assist junior and senior operators / inspectors when required
- Work and communicate professionally with team members and clients
- Confidently work alone and in a team setting
- Perform traffic control for your unit and or a crew when required. Assemble and set up appropriate barricades and signs at work sites.
- Maintain the safe working condition of all equipment used; perform minor maintenance on equipment and report the need for any repairs.
- Assess job sites for potential hazards; determine precautions for safe equipment operation. Ensure adherence to safe work practices and procedures. Recognize, document, communicate and manage hazards encountered during work.
- Accurately observe, record and document conditions and report observations. Complete pre- and post-trip vehicle inspections, daily job reports and safety related forms (FLHAS),

near miss / observation cards, electronic entries for time tracking and Cam-Trac MARS program, etc.

- Read and interpret a variety of maps, drawings, sketches, and blueprints for assigned project areas.
- When required be available for and work independently on out-of-town projects
- Respond to emergency situations during off-hours, as necessary.
- Perform other related duties as required.

Minimum Qualifications

- Class 3 Driver's license in good standing with Q Air Brake Endorsement. Drivers abstract required.
- Experience with operating combination flusher/vac and hydro-excavation equipment
- Effective verbal and written skills
- A range of mechanical abilities to operate, trouble shoot, and perform minor repairs of equipment being used
- Attentive to detail with the ability to adapt to changes in work conditions
- Ability to work in all weather conditions
- Competent ability to use technology such as tablets, cell phones, and supporting software
- Include all safety training certificates with application

Cam-Trac is an inclusive, equal opportunity employer and offers a competitive wage with safety bonus, supportive team environment, and respectful work / life balance.
