

Wastewater Treatment Plant Supervisor

Utilities - Wastewater

Red Deer is Alberta's third largest city, a growing city built on entrepreneurialism, innovation and community spirit that drives who we are and what we do. We, as a city, are served by an innovative government, inspired by the people and businesses that live here, and filled with vibrant places and spaces for people to connect and community to thrive. Located halfway between Calgary and Edmonton, Red Deer is an active city rooted in an expansive park and is young and vibrant with a median age of under 35 years. With a diverse and resilient educated workforce, strong average family income, and ideal geographic location, Red Deer is a highly desirable place to live and do business and continues to grow.

The Opportunity:

The City of Red Deer is currently recruiting a Wastewater Treatment Plant Supervisor to fill a permanent full-time position. The Wastewater Treatment Plant Supervisor is responsible for the supervision of and the day-to-day operations of the Wastewater Treatment Plant. This management position oversees the safe operation of the Maintenance, Operations, and WWTP Laboratory areas. Has additional responsibilities involving special projects, budgeting and public relations.

As our preferred candidate, you will have:

- A Professional Engineer designation registered with Association of Professional Engineers, Geologists and Geophysicists of Alberta with a B.Sc. in Civil, Chemical or Environmental Engineering is preferred.
- Diploma in Civil, Chemical or Environmental Engineering Technology or Alberta Environment Level 4 Wastewater Treatment Certificate
- Technologist registered with Alberta Society of Engineering Technologists or Level 4 Wastewater Treatment Certificate registered with Alberta Environment
- Four years Wastewater Treatment Plant experience in project development, operations, and maintenance
- Two years Supervisory experience
- Extensive wastewater treatment plant process knowledge
- Extensive knowledge of wastewater treatment operations and maintenance methods and practices
- Supervisor experience in a fast paced environment with changing priorities
