

Job description: Silver Willow Water Co-op Ltd is looking for a ***Certified Level 1 Water Operator*** to manage operations at our small water treatment facility, located 20 minutes northwest of Lloydminster. This contract position offers a unique opportunity to make a meaningful contribution to a small rural subdivision - ideal for someone seeking part-time or supplemental work.

Key Responsibilities:

- Operate and monitor a small community water treatment and distribution system, ensuring regulatory compliance.
- Monitor equipment and processes, take readings and make control adjustments to ensure optimal performance.
- Monitor water quality parameters through sampling and testing to ensure safety standards are met.
- Maintain detailed records of plant operations, water quality data, and maintenance activities.
- Perform routine maintenance, troubleshooting, and minor repairs on pumps, filters, and other equipment as needed.
- Troubleshooting to diagnose and resolve issues with equipment or processes to maintain consistent water quality and prevent disruptions.
- Report directly to the Co-op Board and regularly communicate activities, issues and concerns for appropriate budgeting and scheduling.
- Collaborate with Repair & Maintenance team to complete any repairs promptly.

Requirements:

- Valid Level 1 Water Treatment Certification (recognized in Alberta or Saskatchewan)
- Experience with small/rural systems is preferred
- Strong troubleshooting and problem-solving skills
- Reliable, self-motivated, and able to work independently
- Valid driver's license and access to a vehicle
- Available for on-call support as required

Contract Details: Part-time (approximately 10 hours per week), permanent. Compensation to be discussed based on experience and availability. Immediate start preferred. Ideal for someone local or already working in the region.

Schedule: Daily on-site work required Monday to Friday.

To Apply: Please e-mail your resume and certification to silverwillowwater@gmail.com or contact for more information.
